## DIRECTOR'S CORNER

Greetings Harley Owners,

Well, 2020 continues to toss challenges in our path. In addition to the ravages of the virus, we have been hit now by a late season hurricane. Once again, I hope that all our family of riders have been spared great hurts from this latest storm. I am looking forward to seeing many of you when we meet on November 7<sup>th</sup> for our roundup.

The opening of more and more establishments offers us the opportunity to have a target restaurant for our post meeting ride, and this month our Activities Director, Richard Dillon and our Ride Captain Karl Fox are finalizing the route and destination for that event.

We will be accepting final nomination for chapter officers if any wish to step up to replace those we now have; or if not, we will be preparing to accept the current board for another year. All of our current officers are up to the challenge, as we have been sidelined for much of 2020.

We still have openings for those who wish to attend our upcoming Christmas Party at the NOLA Grill on December 12<sup>th</sup>, and a sign up sheet will be available at our meeting for that event. Further down the road, we will be doing our annual Cold Butt Ride in January, and we are confident that we will be able to resume our spring crawfish boil for 2021. These are excellent opportunities for all of our members to get to know each other a little better, and I hope to see many of you there.

Remember that Ride 365 mileage needs to be recorded before the end of the year, but you can update your mileage at any time with Gia.

Thank you for your continued support of our Harley Owner's Group. I look forward to seeing y'all on the 7th. We are asking that you use caution and appropriate equipment to protect yourself and our fellow members as long as this virus is still floating around. We will do our best to provide decent separation at our meeting to help protect you.

Ride and Have Fun.

Hal Morris

# SAFETY BREAK

Okay, I won't go as far as saying it is getting cold out there, but the days are typically getting shorter and cooler this time of year. This month just some cautions about your motorcycle rides in cold weather.

It's not a bad idea to let the bike warm up a little, especially if you keep it in an unheated garage; and make sure to roll it out the door before you let it run. We don't want any CO2 issues!!

Once you are on those backroads we all love to ride, please be extra careful. Overnight temperatures are getting cooler and can cause slick spots on some roads in early morning hours; and remember bridge surfaces tend to freeze before road pavement.

Also, a few trees typically shed their leaves this time of year and wet leaves can be treacherous on a curve; or even on a straightaway.

SO:

- RIDE SAFE
- HEAD ONE A SWIVEL
- KEEP YOUR DISTANCE
- WEAR A MASK WHEN STOPPED AT A PUBLIC AREA
- AND WASH YOUR HANDS
- LET'S KEEP EACH OTHER SAFE
